

## ENVIRONMENTAL POLICY STATEMENT

Hygienic & Environmental Engineering Services Limited cares about the environment in all its forms and recognises that concern for the environment should be an integral and fundamental part of our business.

We are aware of the effect our operations have on the environment, our objective is to balance the need to achieve our business aims.

Hygienic & Environmental Engineering Services Limited conducts its business and operations to comply with all existing environmental legislation and to minimise the risks of all forms of pollution.

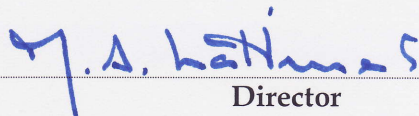

We continually review our environmental performance aiming to minimise energy consumption and the use of materials which are harmful to the environment.

The objective of Hygienic & Environmental Engineering Services Limited is to reduce the environmental impact of the company's activities and to encourage suppliers and customers to adopt sound environmental practices.

We maintain an open information policy towards all parties affected, interested and involved in its activities and to issues which concern the environment.

Hygienic & Environmental Engineering Services Limited responds to the needs of its employees, local communities and other interested parties. We will provide any relevant information pertaining to the environment to ensure effective relations with the community. Appropriate resources will continually be made available to ensure the environmental policy is implemented in full.
